

Fundamentals of Crew LEADERSHIP

This Fundamentals of Crew Leadership course covers basic leadership skills and explains different leadership styles, communication, delegating, and problem solving. Job-site safety and the crew leader's role in safety are also covered during this 6 week course. It will also explain details and procedures for project planning, scheduling and estimating. During this NCCER® Certified Module course, you will learn the skills needed to be an effective leader, including the ability to communicate effectively, provide direction to your crew, and effectively plan and schedule the work of your crew.

Location:

MCEF / MSABC

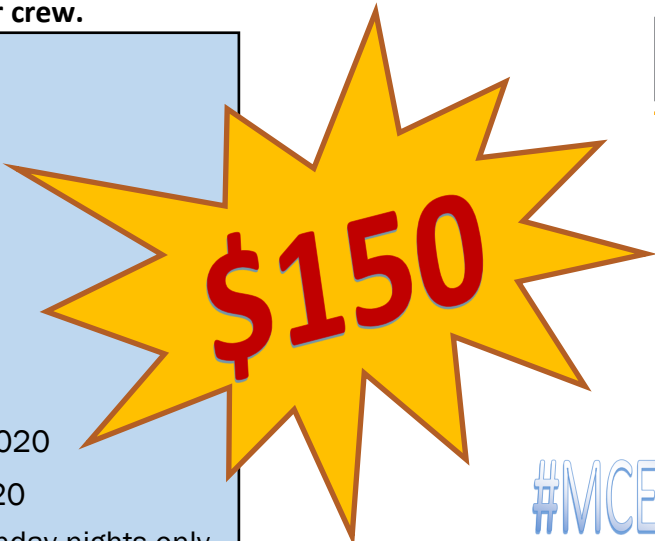

5165 Old Brandon Road
Pearl, MS 39208
